

APPENDIX H

Mountain Union Church

This 1880's era building was relocated to Explore Park in the 1990's, and used until the park closed for weddings and events. Over the past 6 months Roanoke County has refurbished the facility.

Wedding photo at the church from 1990's.

When Roanoke County took over the property last fall, much of the church was in disrepair.

Work Completed To Date:

- Roof repairs
- Interior painting
- Partial floor replacement
- Tree removal
- Grading around building
- Parking lot renovations
- Front porch replacement
- ADA standards upgrades
- Pressure washing exterior
- Exterior painting and staining
- Re-keying facility

Today after pressure washing, repairs and light reconstruction, the facility will once again be used for weddings. Roanoke County has already scheduled several weddings at Explore Park for summer 2014, resulting in new revenue generated for the facility's operation and future development.
