Virginia is for Lovers 

Broadband Planning Strategies Workshop

Interested in better broadband coverage in your community?

Join our workshops, focused on helping communities overcome broadband access obstacles by educating community leaders on how to achieve last mile solutions

Schedule:

- Lexington – March 28th – 10-2pm
- Lebanon – April 4th – 10-2pm
- Keysville – April 25th – 10-2pm
- Surry – May 28th – 10-2pm

Attendees receive “Map books” for their communities; copies of workshop slides that include links to the online broadband planning tools and lots of information to help get an initiative started in your community!

Join us and learn about:

- Virginia’s Community Broadband Planning Strategies Guide
- A public-private partnership case study
- Community Guidance to facilitate broadband expansion
 - What are the technologies, what can you do and where is the funding
- Virginia’s updated Broadband Toolkit
- Virginia’s broadband deployment planning
