# Where is broadband in Virginia?

The screenshot shows the Commonwealth Connection website interface. At the top, there is a navigation bar with the logo and the text "COMMONWEALTH CONNECTION Mapping Virginia's Expanding Broadband Access". To the right, there are logos for "DHCO VIRGINIA" and "VIRGINIA TECH", along with an "ABOUT" button. Below the navigation bar is a search bar with the placeholder text "Find Address" and "Search for an Address". A dropdown menu is open below the search bar, listing the following options: "Find Address", "Cities and Counties", "VA State Senate Districts", "VA House of Delegates Districts", and "School Districts". The main content area is a map of Virginia, showing county boundaries and major cities. The sidebar on the left contains several sections: "Speed Test" (Download Speed, Upload Speed, and Latency), "Broadband Coverage" (Broadband Speed, Technology, & Coverage), "Locations & Boundaries" (Census, Counties/Cities, Government Districts), "Assets & Programs" (WiFi, Towers, State and Non-Profit Programs), and "Other Layers" (Additional Overlay Map Layers). Below these sections is an "Explore Here" section with a brief description and a "Discover" section with more details. At the bottom of the sidebar, there is a "Test" section and a "Privacy Policy" button. The bottom of the page shows a Windows taskbar with various application icons and a system tray with the date and time (11:31 AM 11/6/2024).

# What's Ahead – The BEAD Program

# BEAD Update- Deployment

**Before we can begin the full application process in December 2024**

- Challenge Process Results must be Certified by NTIA
  - +/- 135,000 BEAD Eligible Locations
    - Handful of Counties/Cities without VATI Project
    - Locations in and around existing VATI Projects
    - Scattered Locations in Urban Areas
    - Line Extensions

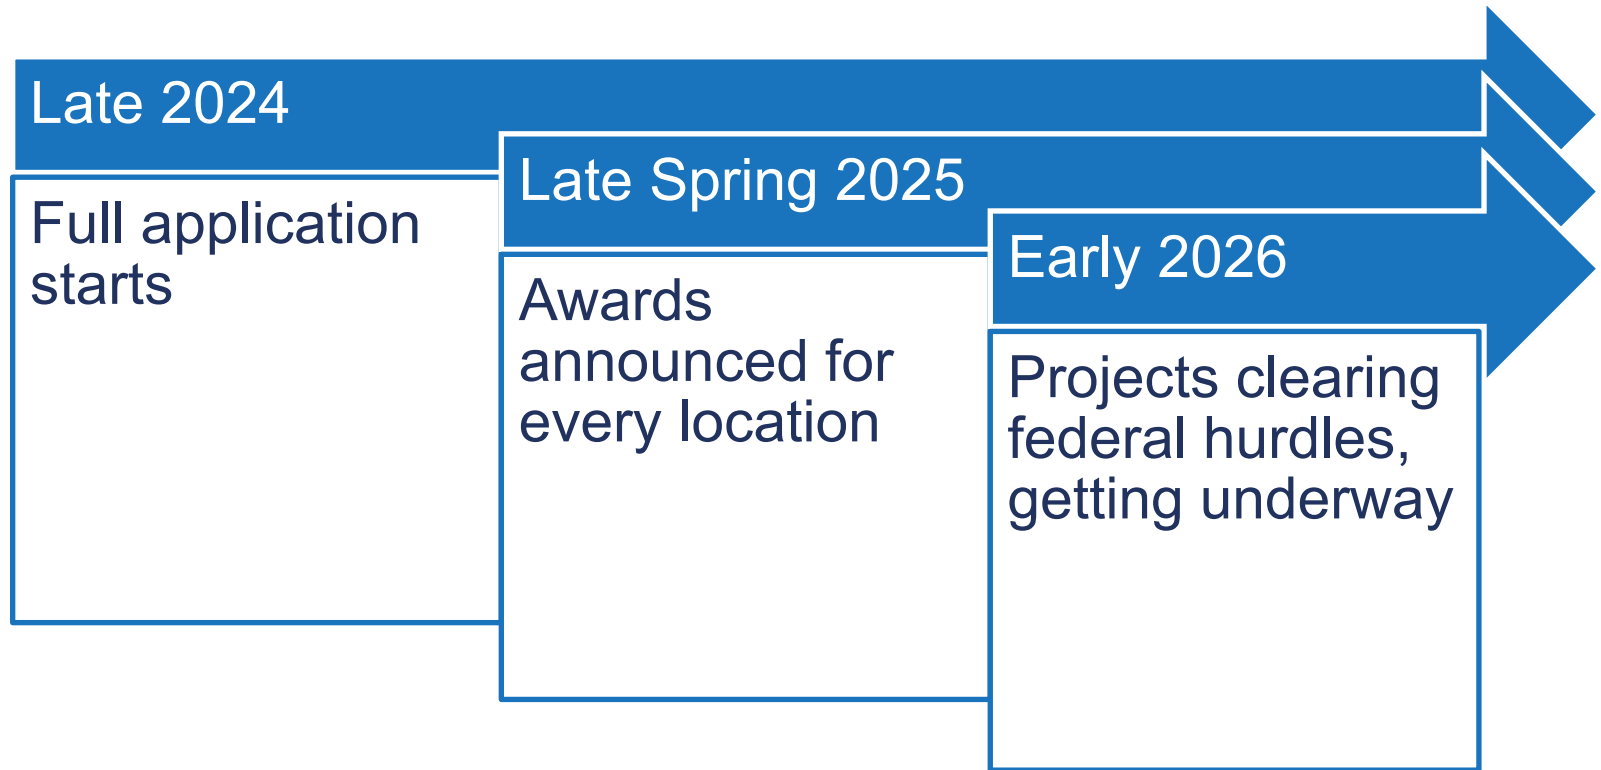

# ■ Preliminary BEAD Eligible Locations

Location size exaggerated to show prevalence on statewide map.

# BEAD Update— What's Coming Next

# ■ BEAD “Non-Deployment” Programs

- Virginia expected to have funds available for broadband adoption and digital literacy programs
- DHCD has met with over 25 other state agencies to develop innovative programs to invest in non-deployment uses, meaning broadband adoption and affordability
- Other initiatives being developed, but pending NTIA approval on concepts

# BEAD Non-Deployment Funding in Virginia

**\$1.48B**

Total VA BEAD allocation

Funding to be first allocated to achieve universal broadband access, then remaining funds for non-deployment activities, including state agency partnerships

Virginia state agencies to administer grants to programs supporting the **11 types of non-deployment activities**

## Eligible Uses of Funding

Digital opportunity plan implementation

Promoting Broadband Affordability

Remote learning & telehealth services

Multilingual outreach to support digital literacy

Stakeholder engagement costs

Broadband sign-up assistance & tech support programs

Digital safety & cybersecurity user training

Digital navigators

Digital literacy & upskilling

Prisoner education

Computer science, coding, & cybersecurity education

**Sample Program:** Developing smart agriculture technologies and capabilities for farming practices

**Sample Program:** Workforce development centers make Chromebooks available to the public in to facilitate their reentry into the workforce

**Sample Use:** Administrative funding to support new and expanded digital opportunity programs

**Sample Program:** Device and smartphone trainings for English learners in libraries, schools, prisons, etc.

**Sample Program:** Cybersecurity, scam, & financial 101 trainings for aging adults

# State Capacity Program

Submitted to NTIA on May 28<sup>th</sup>, 2024 and is **currently awaiting comments and approval.**

 **\$18.3M**  
Total VA State Capacity First-Wave allocation

 Approximately \$3.5M of Capacity funding will be allocated for the **Administration, Virginia's Digital Opportunity Resource Tool and Digital Opportunity Awareness Initiatives.**

 VA DHCD will administer the **Digital Skills, Literacy, and Distribution (DSLSD) Subgrant Program** with remaining \$14.5M for eligible entities *directly* supporting the following activities:

## Digital Skills, Literacy, and Distribution (DSLSD) Subgrant Program Eligible Uses of Funding

**Sample Program**  
*Cybersecurity, scam, & financial 101 trainings for aging adults through intergenerational learning*

Digital Skills and Literacy Programs

Digital Navigation and Tech Support

**Sample Use**  
*Administrative funding to support new and expanded digital opportunity programs*

**Sample Program**  
*Device and smartphone trainings for English learners in libraries, schools, prisons, etc.*

**Sample Program**  
*Courses on using telehealth, applying for jobs online, or navigating online news and social media, etc.*

Device Refurbishment and Distribution Programs

Targeted Efforts for Covered Populations

**Sample Program** *Digital device refurbishment training program to provide affordable devices for covered households*

**Sample Program** *Provide cybersecure digital devices in prisons for self-paced remote learning of incarcerated individuals*
